

## CHATEAU DERESZLA

[www.dereszla.com](http://www.dereszla.com)

„Following few years of neglect, in 2000 the D'Aulan family from Champagne came to realise that this estate, with its rich historical past, was worth being revived again. After renewing the system and introducing full technology, they began creating a single cellar system out of 5 separate ones, to create a cellar that improves the winemaking technology as well as the overall aesthetics.”
