

## **Ktima Lantides Estate**

**Ktima Lantides Estate** is a family business, established in 1993 by Panos Lantides, focusing on the distinction of quality Greek wines. In the first two hectares of our privately owned vineyard, we cultivated white Chardonnay grapes followed, a year later, by the red variety Agiorgitiko that would become the basis of our vineyard over the following years. It was Nemea's soil and climate that impelled Panos Lantides to cultivate delicate grape varieties, such as Agiorgitiko, Cabernet Sauvignon, Merlot, Chardonnay Sauvignon Blanc, Assyrtiko, Malagouzia and Moschofilero. Today Lantides Estate has more than 22 hectares of vineyards, more than 200,000 bottles per year and exports of nearly 50% in U.S.A., China, Canada, U.K., Germany, Swiss, Austria, Belgium and Cyprus.

Panos Lantides was born in Morphou, Cyprus where he lived until 1970, when he decided to engage in oenology. He began by studying in Montpellier, France, acquired the French oenology degree and furthered his knowledge on oenology and viticulture at Bordeaux for another two years.
